"So far as my knowledge extends, no company in the world, during the same period of time ties to call themselves Masons is a living il-bel upon the truth, the honor and integrity of our Fraternity. Let every Mason be ad-PEBLIC CONFIDENCE.

This remarkable success is due in a large measure to the high degree of public confidence inspired by the plan and management of the Association. By Mr. Whiting—to incorporate the Oxford Gas Light Company.

A little less unnecessary fervor in the Lodge, and a good deal more earnestness to be called—and to change the boundary line between Pontotoc and Lee counties.

By Mr. Whiting—to incorporate the Southern Railroad Association of America is the only Missouri Company, and, so far as our knowledge extends, the only Company, with one exception, west of the Allegheny mountains, authorized to do business within the Commonwealth of Massachusetts. In consequence of the insurance laws of Massachusetts, numerous Eastern Companies, including some from the State of New York, are excluded from the transaction of business within the State.

By Mr. Whiting—to incorporate the Southern Railroad Association of America is the only Missouri Company, and, so far as our knowledge extends, the only Company, with one exception, west of the Allegheny mountains, authorized to do business within the Commonwealth of Massachusetts, numerous Eastern Companies, including some from the State of New York, are excluded from the transaction of business within the State.

RESULT OF OFFICIAN

OFFICE OF INSURANCE COMMISSIONER, BOSTON, February 20th, 1870. I, George W. Sargent, Deputy Insurance Commissioner of the Commonwealth of Massach setts, do hereby certify that the Life Association of America, of St. Louis, Mo., having made application to be admitted to do business in Massachusetts, I have, in compliance with the application to be admitted to do business in Massachusetts, I have, in compliance with the rules of this Department, made a personal examination of its affairs at the office of the Company, in St. Louis, embracing its assets, liabilities, &c., and by comparing the results of said examination with the statement made by Professor R. C. Arendt, Actuary of the Insurance Department of the State of Missouri, I find that they substantially agree. The Massachusetts legal standard for computing the liabilities of Life Insurance Companies under outstanding Policies—the Actuary's table of mortality, with 4 per cent. interest—being higher than the Missouri standard—the American mortality with 4½ per cent. interest—the liability of the Company appears larger under the valuation of this Department; nevertheless the assets are more than sufficient to cover all the liabilities, and the Company having fully complied with the laws of the State, is admitted to do business through legally authorized agents in Massachusetts.

In Witness Whereof, I have hereunto set my hand and affixed the seal of this De-Department, at the city of Boston, this 26th day of February, A. D. 1870. GEORGE W. SARGENT, Deputy Insurance Commissioner. Letter from the Hon. Wyllys King, Superintendent of the Insurance Department. INSURANCE DEPARTMENT, STATE OF MISSOURI,

St. Lous, Mo., November 16, 1869. By Mr. Manning—To incorporate the Aus- rats will desert a sinking ship or a falling Jone J. Roz, President of the Life Association of America: Siz—In compliance with your request that I should communicate to you the result of the examination just completed by the Insurance Department, of the affairs of your Company, I hereasolustically with transmit a copy of the official report of the Actuary of this Department, Prof. R. C. Arendt, by whom the investigation was conducted. As this examination was made at your own instance, and would not have occurred at this time without such invitation, it is proper to state that this fact has produced no relaxation of its severity. I take pleasure in expressing my great satisfaction with the result, and my congratulations upon the standing and prosperity of your Company.

WYLLYS KING, Superintendent. EXTRACTS FROM THE REPORT of the Hon. William Barnes, late Superintendent of the Insurance Department of the State of New York.

By Mr. Wood, of Yazoo—as warren and county from Yazoo, Isaquena, Warren and Bill Show of Mr. Whiting introduced a concurrent rest control artificial design of the Constant City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, Arkansas and Kansas City. Mo., and confer with delegates from the States of Missouri, It is fers policy being issued on the like day of Jine, Division, William Conference on the States of Company in the States of the States of Company in the States of Company in the States, Or received so heavy an amount of the States, Or received so heavy an amount of the States, Or received so heavy an amount of the States, Or received so heavy an amount of the States, Or received so heavy an amount of the States, Or received so heavy and amount of the States, Or received so heavy and amount of the States, Or received so heavy and amount of the States, Or received so heavy an amount of the States, Or received so heavy and amount of the States of the States of the United States, Or Received and Company in the States of the States of the United States, Or Received an

in force in each of said States respectively, or, in other words, to the extent of the reinsurance liability of said companies to their policy holders in each State of the Uniqu. This plan I had never seen broached in any quarter, and supposed that it was original with ma; the proposed change was approved by the Assembly, and the act passed that body, but was defeated in the Senate by a few votes on its final passage. I was surprised to find that the same principle had been adopted by your Association, and embodied in your charter as part of the fundamental law of the corporation. Your plan gives to each State, under certain restrictions, the privial lege of retaining, guarding and investing its own reinsurance fund within its own borders, thus enabling its own citizens to insure their lives in a large and national company, without the disadvantage of draining their local means and resources to build up and sustain other and competiting cities and States, perhaps at much lower rates of interest and with no superior margin of security either as to the value of the property mortgaged, or the character of the judiciary which, to a certain extent, holds within its power the assets and welfare of individuals and corporations.

The small commission paid on the Policies of Trustees, and the freeing of a large amount of your business through these policies from the payment of renewal commissions, will, in the future largely diminish your expenses, and tend appreciably to increase your dividends to policy holders. It is unnecessary for me at this time to dilate upon the immense advantages to the Association of compounding investments at the rate of nine or ten per cent, per annum; the difference between these rates and six and seven per cent, will, in a few years (whan your accumulations begin to aggregate by millions of dollars), afford an annual fund in itself sufficient for a respectable dividend to your members.

The LIFE ASSOCIATION OF AMERICA, centrally located and sustained as it is, and has been, by the leading and influential business men of its own gity, and of the Western and Southern States, (soon to basided by their compeers of the Middle and Eastern States), and buoyed up by the heavy rates of interest prevailing in the Valley of the Mississippi, and in the Mountain and Pacific States, needs only a continuance of printent, careful and energotic management to become, within a few years one of the leading financial curporations of this Continent. The vast population from the whole world, hastening, year after year, to join their fortunes with yours, will atmually furnish the Association with now elements of vitality and strength, in the immediate vicinage of the Home Office, while your features of local investment and management will eventually give the Company a home in every city and village in the land. After a careful inspection and examination of your Books and Securities, and a personal acquaintance with most of the members of your Books and Pacinities to recommend the LIFE ASSOCIATION OF AMERICA to the confidence and patronage of the American people, in every State of the Union, and in conclusion, have only to say that I am ready to be people, in every State of the Union, and in conclusion, have only to say that I am ready to become its Consulting Counsel and Actuary, and by this act, to express more forcibly than I otherwise can, my confidence in its present ablus and future career.

Signed:

WILLIAM BARNES.

Complete copies of the above report, together with other documents containing full information relative to the plan workings and condition of the Association, can be had on application to the Principal Office St. Louis, or any of the Department or Branch Offices. James A. Britton, PRESIDENT.
